

What is the Health Consumer Alliance (HCA)?

The HCA is a network of ten consumer assistance programs operated by community-based legal services organizations across the state of California. The HCA offers free assistance online, over-the-phone or in-person at independent, community-based offices throughout the state, helping people who are struggling to get or maintain health coverage and resolve problems with their health plans. We also provide statewide policy advocacy to resolve systemic health care issues impacting Californians.

Who do we help?

We help Californians: apply for and keep their health coverage, including Medi-Cal and Covered California; dispute denials of health services and prevent disruption in care; find the appropriate doctor or provider; and address and resolve billing problems.

The HCA is the official Consumer
Assistance Program supported by the
California Department of Managed Health
Care and Covered California. These
agencies refer consumers to HCA, as do
application assistors and communitybased organizations.
