

In response to the recent wildfires, the Department of Health Care Services has collaborated with Los Angeles County to restore terminated eligibility and delay renewals for Medi-Cal members in zip codes affected by the wildfires. ([Click here for a full list of the zip codes](#)).

- Medi-Cal members with addresses in the affected zip codes who were discontinued in January 2025 will have their eligibility reinstated through their next annual renewal in January 2026.
- Medi-Cal members with addresses in the affected zip codes with renewals scheduled for February, March, and April 2025 were automatically extended by six months from their current renewal month. **This means that Medi-Cal members will receive their renewal packets and reminder notices during their regular times, but they have an extra six months to respond.**

These actions ensure that Medi-Cal members directly impacted by the wildfire can maintain their health coverage during this state of emergency.
